2019 HIGHLIGHTS

Osisko Transaction and Financing

On February 19, 2019, the Company entered into a binding letter agreement (the “Letter Agreement”). The Letter Agreement outlined the terms and conditions upon which Osisko Mining Inc. (“Osisko”) effected a business combination that resulted in a reverse takeover of the Company by Osisko (the “Transaction”), which closed on July 5, 2019, subsequent to June 30, 2019. Pursuant to the Transaction, Osisko transferred certain non-core assets of Osisko with a value of approximately \$99.9 million to the Company in exchange for 24,977,898 post-consolidation shares of the Company. In connection with the Transaction, Chantrell also, among other things: (i) changed its name to “O3 Mining Inc.”; (ii) replaced all directors and officers of the resulting issuer; (iii) obtained conditional listing approval for the listing of the resulting issuer on the TSX Venture Exchange; (iv) consolidated the common shares of the resulting issuer on a 40:1 basis, subject to adjustment; (v) continued from British Columbia to Ontario; and (vi) completed the conversion of the outstanding subscription receipts of Chantrell for the underlying securities.

As part of the Transaction, on February 21, 2019, the Company entered into an agreement with Canaccord Genuity Corp. (the “Lead Underwriter”) and a syndicate of underwriters (together with the Lead Underwriter, the “Underwriters”) to issue, on a bought deal private placement basis, subscription receipts (the “Subscription Receipts”) at a price of \$3.88 per Subscription Receipt (the “Issue Price”) in the capital of the Company (the “Offering”).

Each Subscription Receipt was automatically converted, without payment of additional consideration, into one post-consolidation unit in the capital of the Company (a “Unit”) in connection with the completion of the business combination between the Company and Osisko that resulted in a reverse takeover of the Company by Osisko and formed a new company named O3 Mining Corporation (the “Resulting Issuer”.

The net proceeds of the Offering were held in escrow pending satisfaction of the escrow release conditions which included completion of the Transaction. Each post-consolidation Unit was comprised of one post-consolidation common share and one post-consolidation warrant. Each post-consolidation warrant will be exercisable to acquire one additional post-consolidation common share (a “Warrant Share”) for a period of 36 months following the effective date of the Transaction at an exercise price of C\$4.46 per Warrant Share.

On March 27, 2019, the Company closed the first tranche of its Offering of Subscription Receipts. The Company issued an aggregate of 4,571,100 Subscription Receipts at a price of \$3.88 per Subscription Receipt for proceeds of \$17,735,868. On June 27, 2019, the Company closed the second tranche of its Offering of Subscription Receipts. The Company issued an aggregate of 200,942 Subscription Receipts at a price of \$3.88 per Subscription Receipt for proceeds of \$779,655.

The gross proceeds of the Offering (the "Escrowed Proceeds") were deposited into escrow with Computershare Trust Company of Canada as escrow agent and were released on the closing of the Transaction, being July 5, 2019.

For their services in connection with the completion of the Offering, the Underwriters received: (i) a cash commission equal to 5.0% of the aggregate gross proceeds and (ii) broker warrants (the “Broker Warrants”), representing 5% of the Subscription Receipts issued pursuant to the total Offering. Each Broker Warrant is exercisable for one Common Share at a price of \$3.88 for a period of 18 months following the closing of the Transaction.

On closing of the transaction, the Company purchased the outstanding post-consolidation options of 44,500 from the option holders, being all the outstanding options as at July 5, 2019 for proceeds of \$83,671 and cancelled these options immediately.

Property Agreement

On July 2, 2019 the Company entered into a binding share purchase agreement (“SPA”) with Chalice Gold Mines Limited (“Chalice”) to acquire Chalice’s wholly-owned subsidiary Chalice Gold Mines (Quebec) Inc. (“CGMQ”). CGMQ is the registered holder of the East Cadillac and Kinebik Gold Projects in Quebec, Canada. CGMQ also holds the underlying Option Agreements on the East Cadillac Gold Project with Globex Mining Enterprises Inc. and Renforth Resources Inc.

The transaction closed on July 25, 2019 and under the SPA, Chalice sold all the outstanding shares in its wholly owned subsidiary CGMQ, to the Company. In accordance with the restrictions under Canadian securities laws and subject to certain exceptions, Chalice will be restricted from trading these shares for a period of four months from the date of issuance.

Chalice retains a 1.0% NSR royalty on all 100% owned claims on both projects that are not subject to a pre-existing royalty. CGMQ currently has approximately C\$1.3 million in tax credits and, under the SPA, the Company will reimburse Chalice any amounts received, provided that such amounts are received from Canadian tax authorities during an agreed post-closing period.

Alexandria Agreement

On August 1, 2019, O3 Mining completed its previously announced business combination with Alexandria Mineral Corporation ("Alexandria"), pursuant to which O3 Mining acquired all the common shares of Alexandria by way of a statutory plan of arrangement under the Canada Business Corporations Act. Under the terms of the arrangement, each former shareholder of Alexandria received 0.018041 common share of O3 Mining on a post-Consolidation basis in exchange for each common share of Alexandria held. The deemed purchase price was \$0.07 per common share of Alexandria, which was based on the \$3.88 subscription receipt financing completed by O3 Mining.

OVERALL PERFORMANCE

The Company has no revenues, so its ability to ensure continuing operations is its ability to obtain necessary financing to complete the acquisition and development of potential mining properties.

The net loss and comprehensive loss for the three months ended June 30, 2019 was \$69,517 (\$0.12 per post-consolidation share) as compared to \$68,407 (\$0.15 per post-consolidation share) for the three months ended June 30, 2018. Net loss and comprehensive loss is comparable to the prior year as expected, except for the decrease in share based compensation to \$Nil (2018 - \$35,000). These share based compensation costs decreased as the Company did not issuing any options during the three months ended June 30, 2019 as compared to 23,750 post-consolidation options in the same period in 2018.

The net loss and comprehensive loss for the six months ended June 30, 2019 was \$95,658 (\$0.16 per post-consolidation share) as compared to \$99,648 (\$0.21 per post-consolidation share) for the six months ended June 30, 2018. Net loss and comprehensive loss is comparable to the prior year as expected, except for the decrease in share based compensation to \$Nil (2018 - \$35,000). These share based compensation costs decreased as the Company did not issuing any options during the six months ended June 30, 2019 as compared to 23,750 post-consolidation options in the same period in 2018.

LIQUIDITY AND FINANCIAL CONDITION

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2019, the Company had a working capital deficiency of \$37,294 (December 31, 2018 - working capital of \$58,364), consisting of current assets of \$1,438,637 (December 31, 2018 - \$103,514) compared to current liabilities of \$1,475,931 (December 31, 2018 - \$45,150). On closing of the Transaction on July 5, 2019, the company obtained access to the Escrowed Proceeds of approximately \$18 million and marketable securities transferred from Osisko with a value of approximately \$14 million. This strengthens the Company's working capital position and the ability of the Company to continue to pursue its activities and continue as a going concern. All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

The Company currently is not able to internally finance on-going operating costs of its businesses over the long term and therefore will require additional financing by means of issuing share capital, advances from related parties, or other sources. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. In addition, the Company will require additional financing in order to assist in the search, and, if warranted, acquisition of a business opportunity. There can be no certainty of the Company's ability to raise additional financing through private placements, advances from related parties, or other sources to fund these activities. Consequently, the Company is subject to liquidity risks.

These unaudited interim financial statements have been prepared in accordance with accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially

different from carrying values as shown and the Company's unaudited interim financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

For the six month period ended June 30, 2019, the Company had an opening cash balance of \$92,767 (Year ended December 31, 2018 - \$9,070). The cash balance decreased by \$35,193 (Year ended December 31, 2018 – increase \$83,697) mainly from the operating loss for the six month period ended June 30, 2019 of \$95,658 (Year ended December 31, 2018 – \$165,490), offset from the net proceeds of a private placement in the current year of \$Nil (Year ended December 31, 2018 – \$264,400).

As at June 30, 2019, the Company had a working capital deficiency of \$37,294 (December 31, 2018 - working capital of \$58,364), had not yet achieved profitable operations, had accumulated losses of \$5,027,578 (December 31, 2018 - \$4,931,920) and expects to incur further losses in the development of its business, all of which casts significant doubt upon the Company's ability to continue as a going concern. Subsequent to six month period ended June 30, 2019, the Company completed a financing for gross proceeds of approximately \$18.5 million. This financing will be used to fund operations going forward. See 2019 Highlights above for further information on the financing.

Certain corporate entities and consultants that are related to the Company's officers and directors or persons holding more than 10% of the issued and outstanding shares of the Company provide consulting and other services to the Company. All transactions were conducted in the normal course of operations and are measured at the exchange amounts.

For the six month period June 30,	2019		2018	
Balances:				
Employee salaries	\$	30,000	\$	30,000
Total compensation paid to key management	\$	30,000	\$	30,000

As at June 30, 2019, the Company had \$68,000 (December 31, 2018 - \$31,000) in trade and other payables due to an officer and director of the Company and a company controlled by an officer and director of the Company.

RISKS AND UNCERTAINTIES

An investment in the securities of the Company is highly speculative and involves numerous and significant risks. Such investment should be undertaken only by investors whose financial resources are sufficient to enable them to assume these risks and who have no need for immediate liquidity in their investment. Prospective investors should carefully consider the risk factors that have affected, and which in the future are reasonably expected to affect, the Company and its financial position. Please refer to the section entitled "Risks and Uncertainties" in the Company's Annual MD&A for the fiscal year ended December 31, 2018, available on SEDAR at www.sedar.com, which includes, but are not limited to, certain of these risk factors.
