1) Reporting entity

O3 Mining Inc. ("O3 Mining" or the "Corporation"), formerly Chantrell Ventures Corp. is a Canadian corporation domiciled in Canada and was incorporated on July 29, 2004 under the Ontario Business Corporations Act. The address of the Corporation's registered office is 155 University Ave, Suite 1440, Toronto, Ontario, Canada. The condensed interim consolidated financial statements of the Corporation at March 31, 2020 include the Corporation and its subsidiaries, Northern Gold Mining Inc., Niogold Mining Corporation, O3 Markets Inc., Chalice Gold Mines (Québec) Inc. ("Chalice"), Alexandria Minerals Corporation ("Alexandria"), 9401-3513 Québec Inc. and Murgor Resources Inc. (together the "Group" and individually as "Group entities"). The Corporation is primarily in the business of acquiring, exploring and developing precious mineral deposits in Canada.

The business of acquiring, exploring and developing precious mineral deposits involves a high degree of risk. O3 Mining is in the exploration stage and is subject to risks and challenges similar to companies in a comparable stage. These risks include, but are not limited to, the challenges of securing adequate capital; exploration, development and operational risks inherent in the mining industry; changes in government policies and regulations; the ability to obtain the necessary environmental permitting; challenges in future profitable production or, alternatively O3 Mining's ability to dispose of its interest on an advantageous basis; as well as global economic and commodity price volatility; all of which are uncertain. There is no assurance that O3 Mining's funding initiatives will continue to be successful. The underlying value of the mineral properties is dependent upon the existence and economic recovery of mineral reserves and is subject to, but not limited to, the risks and challenges identified above. Changes in future conditions could require material impairment of the carrying value of mineral properties and deferred exploration.

2) Basis of preparation

a) Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements including IAS 34, Interim Financial Reporting and are presented in thousands of Canadian dollars.

These unaudited condensed interim consolidated financial statements do not include all of the disclosures required for annual financial statements and therefore should be read in conjunction with the Corporation's audited annual consolidated financial statements and notes thereto for the year ended December 31, 2019.

These condensed interim consolidated financial statements were authorized for issuance by the Corporation's board of directors (the "Board of Directors") on May 6, 2020.

b) Significant accounting policies

The significant accounting policies followed in these condensed interim consolidated financial statements are consistent with those applied in the Corporation's audited annual consolidated financial statements for the year ended December 31, 2019.

2) Basis of preparation (continued)

c) Changes in IFRS accounting policies and future accounting pronouncements

Certain pronouncements were issued by the IASB or the International Financial Reporting Interpretations Committee that are mandatory for accounting years beginning on or after January 1, 2020. Many are not applicable or do not have a significant impact to the Corporation and have been excluded from the summary below.

IFRS 3, Business Combinations ("IFRS 3")

In October 2018, the IASB issued amendments to the guidance in IFRS 3, that revises the definition of a business. The revised guidance introduces an optional concentration test that, if met, eliminates the need for further assessment. To be considered a business, an acquisition would have to include an input and a substantive process that together significantly contribute to the ability to create outputs. The new guidance provides a framework to evaluate when an input and a substantive process are present. It is also no longer necessary to assess whether market participants are capable of replacing missing elements or integrating the acquired activities and assets. These amendments are effective and shall be applied to business combinations for which the acquisition date is on or after the beginning of the first annual reporting periods beginning on or after 1 January 2020 and to asset acquisitions that occur on or after the beginning of that period. The corporation applied the revised definition of a business to determine accounting for all asset acquisitions during the period ended March 31, 2020 (note 3).

d) Use of critical estimates and judgements

The preparation of these condensed interim consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed by management on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision and future year if the revision affects both current and future year.

In preparing these unaudited condensed interim consolidated financial statements, the significant judgements and estimates made by management in applying the Corporation's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited consolidated financial statements as at and for the year ended December 31, 2019.

The outbreak of the novel coronavirus ("COVID-19"), has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. The Corporation suspended its operations in Québec due to COVID-19 on March 23, 2020 and the sites have been put on care and maintenance. The duration and impact of the COVID-19 pandemic is unclear at this time and as a result it is not possible for management to estimate the severity of the impact it may have on the financial results and operations of the Corporation in future periods. It is management's assumption that the Corporation will continue to operate as a going concern.

2) Basis of preparation (continued)

d) Use of critical estimates and judgements (continued)

The Corporation is working with both the Federal and Provincial Governments to help lobby an extension of the flow-through spending during this crisis. Based on current legislation, as of March 31, 2020, the Corporation is required to spend \$4.2 million of flow through funds by December 31, 2020.

O3 Mining acquired the property from Monarch in exchange for 113,637 common shares of O3 Mining.

b) Acquisition of Louvem Property

On March 16, 2020, O3 Mining completed the acquisition of the Louvem Property from Monarch. The Louvem Property consists of 12 mining claims and is located five kilometres east of Malartic, Québec. O3 Mining will acquire the remaining 50% interest in the Louvem Property for cash consideration of CDN \$10,000 within two days of the receipt by Monarch of a declaratory judgment in respect of the Louvem Property.

The acquisition has been accounted for as an acquisition of assets as the Louvem Property does not meet the definition of a business under IFRS 3. The transaction was recorded at the fair value of the consideration transferred of \$15,000 as detailed in the table above.

	Three months ended				
	Mar	March 31,		March 31,	
For the period ended		2020			
Common shares outstanding, at beginning of the period (1)	46,92	27,215		600,249

c) Diluted loss per share

The Corporation incurred losses for the period ended March 31, 2020 and 2019, therefore all outstanding stock options and warrants have been excluded from the calculation of diluted loss per share since the effect would be anti-dilutive. d) Contributed surplus

The maximum number of shares reserved for issuance under the incentive stock option plan and all other security-based compensation arrangement of the Corporation is 10% of the issued and outstanding common shares of the Corporation. The options issued under the plan may vest at the discretion of the Board of Directors and are exercisable for up to 5 years from the date of grant.

10) Restricted share unit and deferred share unit plans

In August 2019, O3 Mining established a restricted share unit ("RSU") plan and a deferred share unit ("DSU") plan. Under these plans, RSUs can be granted to executive officers and key employees and DSU's can be granted to non-executive directors, as part of their long-term compensation package, entitling them to receive payout in cash or shares, or a combination of both. Should the payout be in cash, the cash value of the payout would be determined by multiplying the number of RSUs and DSUs vested at the payout date by the five-day volume weighted average price from closing price of the Corporation's shares on the day prior to the payout date. Should the payout be in shares, each RSU and DSU represents an entitlement to one common share of the Corporation.
